As Sam Jones would say, wonder wonder how many of the boys arrested this week for poker-playing first learned to play cards in private parlors! This is a good subject for serious next Sunday.

Prof. C. B. Pittman, of San Diego, Cal., writes to correct the publication in this paper that his bride was a widow. His wife was Miss Cronwell and Prof. Pittman is her first and only love. No warm-over affection for him.

Col. Nat Gaither, Sr., is confined to his bed with cancer of the tongue, at his home on Depot street. His malady has been pronounced incurable, but his condition has improved considerably the past few days and hope has revived.—Harrodsburg Sayings.

Mr. L. R. Kenner has been appointed postmaster at Beverly, in this county, vice Mr. R. T. Word removed. In this case one good Democrat has been turned out to make room for another, while the Republican postmaster at Crofton still hangs on, although a Democrat has been recommended for the place.

Liquor license at Sebes has been placed at \$1,000, and there will only be two saloons opened in that place for the present. About a dozen "blind tigers" have already disappeared and the two saloon men have announced that "these troublesome animals" must all go.

Misses Aione Griesam and Matilda Moore entertained about fifty of their little friends Wednesday evening from 7 to 11 o'clock, the occasion being a Valentine party. The little folks had a most pleasant time and were the recipients of various kinds of Valentines from the strictly comic to the most sentimental. The affair proved a highly enjoyable one to all present.

Some of our church friends have taken us to task for saying some of the parties pulled for gaming Monday were "leading church members." This was perhaps putting it stronger than the facts justify. There were a few church members in the list, but their brethren deny that they are entitled to be called "leading" members. It is unnecessary to add that the Kentuckian had no intention to reflect on the Christian religion or any church people.

The Modern Invalid Has tasted medicinally in keeping with other luxuries. A remedy made by purest wholesome in composition.

## CHEAM OF NEWS.

Captured a Convict.

Jim Jones, who escaped from the Eddyville penitentiary about a month ago, was captured in Louisville Monday and returned to the State institution to complete his sentence. He was a five-year man and had only served about half of his sentence when he made his escape.

Shot Near the Heart.

Monday night two negroes named Torian and Lowry had a row near the Old Fair ground. Torian drew his pistol and shot Lowry in the left breast just over the heart. Physicians probed for the ball, but were unable to locate it. The wound is not considered a dangerous one, and Lowry will be out in a short while.

Must Sell on the Head.

The Clarksville Board of Trade has received a cablegram from the Bremen importers requesting that the tobacco on this market be sold on the head of the hoghead. The Board held a meeting at the Exchange Tuesday to consider this request, and after a full discussion of the matter decided to accede to their request.—Clarksville Progress-Democrat.

A Common Occurrence.

A train of cars on the C. O. & S. W. R.R. crossing the bridge over the Tennessee river near Gilbertsville ran over a woman and child on Thursday morning.

Later: The woman and child were fishing under the bridge and they are still fishing according to our latest information.

Railroad Conductor Injured.

Conductor Thomas Ryan, who runs the local freight between Earlinton and this city, slipped and fell from the steps of his caboose just as his train reached the city yesterday morning and was painfully injured. His right hand was caught under one of the wheels and was crushed very badly. Drs. Blakey and Stites dressed the wounded member and the chances are that amputation will not be necessary. Captain Ryan's home is in Earlinton.

Three Negroes Drowned.

Sunday near Shawneetown, three negroes, Jake and Bob Wilgus and Rube Conn, while under the influence of liquor, attempted to row over the Ohio river during a fierce wind storm. They had not proceeded over thirty yards before the skiff capsized, leaving the trio to buffet the seething white caps, which soon dashed them to destruction in sight of several companions, who had vainly sought to prevent them attempting the passage. Their bodies had not been recovered at last accounts.

No Clue to Them Yet.

John Boyd, of Todd county, was found murdered in the woods several days ago. He had several wounds about the face. When last seen Boyd was with Dandy Gibson, alias Brener and James Gibson alias Jones and all three of them were drunk. A young man named Harris saw them fighting and saw Jas. Gibson hit Boyd with a rock. The coroner held an inquest and decided that Boyd was murdered by the Gibsons, who have disappeared and no clue to their whereabouts has been discovered.

Tobacco Tips.

The sales at the Exchange Wednesday amounted to 125 hogheads. Of this only about one fifth was new tobacco. Receipts for the week were 150 hogheads. The market was steady on common grades—both leaf and lugs. The few hogheads of good tobacco offered commanded very satisfactory prices, showing that where parties have good goods there need not be uneasiness about the prices. There has been a steady increase in receipts during the past week, and as the week is now on until the crop of '93 is all in.

Trigg Circuit Court.

The February term of Trigg Circuit Court has been in session at Cadiz for two weeks, and the Commonwealth's docket was finished up Wednesday afternoon. Fenton Tyler, col. charged with malicious shooting, was given three and a half years in the penitentiary. Ed Miller, another negro, charged with striking and wounding with intent to kill, was convicted and given three years. The case of the Commonwealth vs. the Early brother, negroes, who are charged with the murder of Tom Gaines, another negro, near Roaring Springs, some months ago, was continued until the next term. The balance of this term will be taken up in the disposition of civil matters.

What Al. G. Field Will Not Do.

He will not have but one minstrel company on the road, and it will be under his immediate direction. He will not have an interest in any other amusement venture, and will not try to move the World's Fair into the auditorium and use the Fair buildings to exhibit his Columbian Minstrels; neither will he send his minstrel company abroad—there's too much money in America. Neither will he foist upon upon press or public any palpable exaggerations for self-aggrandizement, but in the future, as in the past, will give the public the best legitimate minstrel entertainment ever seen. When the band plays and the doors open, press and public will verify this statement. Will appear at the Opera House to-night.

The sick and delicate need a gentle tonic stimulant. It is often a matter of life and death with them. The ideal nutrient and restorative is pure whiskey. The whiskey usually given is poor and therefore dangerous. Too much stress cannot be laid upon this. Weakness requires a mature, wholesome, mellow liquor. That's precisely what the I. W. Harper whiskey is. Perfect as a beverage or medicine. It prevents chills and tones up the system. It exhilarates and does not poison, for all food oil and impurities are removed. That's why doctors drink it. It's good for the sick and of land excellent for the young and well. Sold by W. R. Long, Hopkinsville, Ky.
